3M | PELTOR™ Protection & Communication

Keep Connected, Working and Engaged

3M™ PELTOR™ WS™ ALERT™ Series hearing protection headset

Bluetooth®

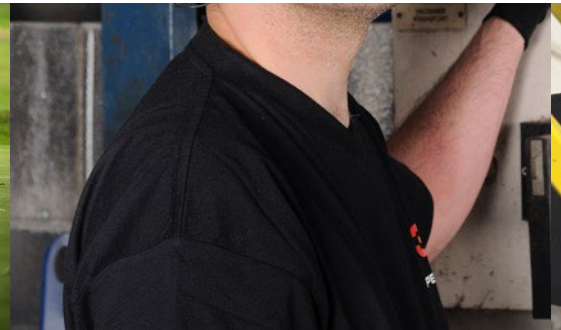

3M™ PELTOR™ is a world leader in the field of communication equipment for noisy environments.

Over 75 years of developing communication headset and hearing protectors has put us at the forefront of safety, comfort and quality.

Key Applications

Handymen in construction companies

Private contractors driving machines

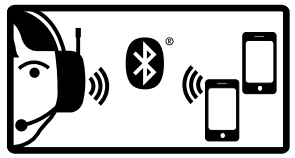

Farmers in the agriculture business

Maintenance workers in industrial sites

Key features

Bluetooth® wireless technology

– Enables you to talk on your cell phone while working and to stream audio (music, books, etc.)

Level-dependent function for ambient listening

– To help improve situational awareness and face-to-face communication.

Noise cancelling boom microphone

– For clear speech transmission in noisy environments

Connectivity to cell phone App and Support of OTA

– Helps you to set up and navigate your headset as well as find 3M support.

3M Connected
Equipment App

Maximize Your Product's Potential

“I often work outside in dirty environments, and I need to make calls several times a day. With this headset, it is easy to both call and pick up calls, even with my gloves on. I don’t need to stop and use my mobile phone. I can do it all in the headset!”
– Julia, Excavator & Land Clearer

“This headset protects my hearing. I can easily talk with my colleagues as well as stream my favorite music right in the headset. And besides that, they are comfortable!”
– Martin, Electrician
